Protection when faced with a critical illness diagnosis and you need treatment

Critical Illness Insurance from Allstate Benefits*

No one is ever really prepared for a life-altering critical illness diagnosis. The whirlwind of appointments, tests, treatments and medications can add to your stress levels.

The treatment to recovery is vital, but it can also be expensive. Your medical coverage may only cover some of the costs associated with treatment. You're still responsible for deductibles and coinsurance. If treatment keeps you out of work, the financial worries can grow quickly and stress levels may rise.

Critical Illness coverage helps provide financial support if you are diagnosed with a covered critical illness. With the expense of treatment often high, seeking the treatment you need could seem like a financial burden. When a diagnosis occurs, you need to be focused on getting better and taking control of your health, not stressing over financial worries.

Here's How It Works

You choose benefits to protect yourself and any family members if diagnosed with a critical illness. Then, if diagnosed with a covered critical illness, you will receive a cash benefit based on the percentage payable for the condition.

Meeting Your Needs

- Guaranteed Issue, meaning no medical questions to answer at initial enrollment
- Coverage available for dependents
- Covered dependents receive 50% of your Basic-Benefit Amount
- Benefits paid regardless of any other medical or disability plan coverage
- Premiums are affordable and conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details

With Allstate Benefits, you can make treatment decisions without putting your finances at risk. **Are you in Good Hands? You can be.**

For most parents who have been diagnosed with a critical illness, their family is the first thing they think about. They may think about their future, their children, and how their loved ones will cope with their treatment. Most importantly, they may wonder how they will pay for it.

Here is what they may consider:

- Major medical only pays a portion of the expenses associated with treatment
- Copays must be paid until the deductible has been met
- If they are not working due to their treatments, they must cover bills, rent/mortgage, groceries, and education expenses
- If the right treatment is not available locally, they will have to travel to get the necessary treatment

This family's story of diagnosis and treatment turned into a happy ending, because they had supplemental Critical Illness Insurance to help with expenses.

CHOOSE

The mother chooses Critical Illness benefits to help protect herself and her family if they are diagnosed with a critical illness.

USE

During her annual wellness exam, her doctor noticed an irregular heartbeat. She underwent an electrocardiogram (EKG) test and stress test, which confirmed she had a blockage in one of her coronary arteries.

Here's the treatment path:

- She has her annual wellness exam
- Her doctor notices an abnormality in her heartbeat; tests are performed and she is diagnosed with coronary artery disease
- After visits with doctors, surgeons, and an anesthesiologist, she undergoes surgery
- Surgery is performed to remove the blockage with a bypass graft. She is visited by her doctor during a 4-day hospital stay and released
- She follows her doctor's required treatment during a 2-month recovery period and has regular doctor office visits

She is doing well and is on the road to recovery.
